Comple

- 300 MHz processor ensures the highest possible performance.
- Monitoring function available at input and output to facilitate fault defection.
- Flutter frequency and amplitude can be set against the ratio of electromagnetic outp
- Closed-loop output of electromagnetic ratio is not a f ected by voltage and temperat
- Improved design, for better electromagnetic compatibility.
- Ingress protection: IP67, resistant to dust and water.
- Operating temperature range: -85 ~-40 , supporting your machinery even in the
- Vibration and shock speci f cations meet all requisite requirements.
